EDUCATION

University of Florida

Bachelor of Science in Computer Science, minor in Asian Studies

GPA: 3.70

Gainesville, FL

May 2024

EXPERIENCE

Figma

San Francisco, CA

Software Engineering Intern & Kleiner Perkins Fellow

Summer 2023

- Enhance user experience by integrating support for attaching media files across Figma's commenting features
- Create **Ruby** endpoints to save media in S3, store keys in our database and display real-time updates to users
- Participate in **Kleiner Perkins** fellowship, gaining insight on entrepreneurial and technical innovation in startups

Lyft

New York City, NY

Software Engineering Intern

Fall 2022

- Collaborated with the Competitive Intelligence team to collect and analyze pricing and ETA data
- Implemented a supporting pipeline that re-transcribes failed tasks during Lyft's off-hours and ensure data accuracy
- Utilized **Python** and **SQL** to create endpoints that seamlessly transfers data from an S3 bucket to our project

Google

Cambridge, MA

Software Engineering Intern

Summer 2022

- Unified and expanded the use of the save feature in Google Hotels, reaching 16 million daily signed out users
- Designed experiments that enable features to a small subset of users and measure their impact
- Collaborated with UX, PM, Privacy, and other software engineers to ensure proper functionality and logic

J.P. Morgan Chase and Co.

Tampa, FL

Software Engineering Intern

Summer 2021

- Produced a portal for Small Merchant Businesses (SMB's) to easily access *Chase for Business* Micro-Services
- Applied firm-wide styles and **React** components to mirror mainstream designs and functionality

LEADERSHIP

Society of Hispanic Professional Engineer

Gainesville, FL

Vice President of Technology

Summer 2023-Present

- Lead 70+ directors to support SHPE members in excelling in their engineering courses and grow in their fields
- Spearheaded UX design and Discord roles, coordinated a Hackathon for 50+ attendees, & led technical workshops
- Organized competitive design teams, crafting two mobile apps in **Kotlin & Swift** and 2 **Autonomous Vehicles**

Scrum Master & Senior Software Engineering Director

Fall 2020-Spring 2023

- Facilitated the organization and maintenance of SHPE UF's website by leading our team to develop new features
- Implement industry coding practices to our codebase and team to enhance our development cycles

UF Herbert Wertheim College of Engineering

Gainesville, FL

Teaching Assistant for Data Structures and Algorithms & Programming Fundamentals 1

Spring 2023-Present

- Update course curriculum for 4+ CISE courses to reflect proper industry practice by collaborating with instructors
- Lead two discussion periods for 50+ students, host office hours, grade students' work, and update class content

PROJECTS

Intro to Software Engineering - Scrum Master

Gainesville, FL

edYou - Flutter, MongoDB, GraphQL

Spring 2022

- Developed a mobile educational platform that provides a stream of tailored articles & videos to user's interests

Google Software Product Sprint Participant

Miami, FL

Traveller - JavaScript, Java, HTML, CSS

Spring 2021

- Designed a vacation planning site that utilized **Google Maps & Directions APIs** to optimize trip scheduling
